

CLOUD PBX

7 BENEFITS OF CLOUD BUSINESS PHONE SYSTEMS

REDUNDANCY 4

You eliminate the dependency on one single equipment, you can use multiple servers on different geographical areas providing redundancy and disaster recovery.

5 ENVIRONMENT

A Cloud Based Voice Solution will use less equipment and therefore less energy which results in a lower carbon footprint for your business.

EASY SETUP

Easily add/remove virtual offices anywhere in the world.

SPEED OF INSTALLATION

There are no requirements for a physical PBX and local configuration making installation much faster.

6 RUNNING COSTS

You don't need to call an engineer when maintenance is required or in case you manage your own PBX in-house you can free valuable resources to other tasks.

7 FLEXIBILITY

Manage your users at the click of a button. Usually you can keep your existing voice hardware.

1 INSTALL COSTS

Your cloud PBX has zero (\$0) Installation Costs as opposed to a traditional PBX.
